

Advanced Sleep Technology Course

‘Establishing a Sleep Laboratory’

April 7, 2018

Baldev Singh Sleep Laboratory, Department of Physiology,
AIIMS, New Delhi

Advanced Sleep Technology Course is the first of its kind in the series. The course will outline the know-how and technicalities associated with establishing and running a human sleep lab successfully. All the stakeholders involved in the sleep health care including physicians, researchers, technicians, industry and business owners or anyone who is interested in opening a sleep lab will benefit from this course. It will also be highly beneficial for those who all are already running a sleep laboratory.
